LUIS EDUARDO ORDAZ MARTÍNEZ

Full Stack Developer with a focus on .NET technologies, React, and integration in cloud environments

+52 1 5545303870 | ieduuardo@outlook.com | Atizapán de Zaragoza, Estado de México, México | LinkedIn

PROFESSIONAL PROFILE

Information Technology professional with over 3 years of experience in web and mobile development, technical support, infrastructure management, and quality control. I currently work as a developer, participating in front-end projects using React and Ionic, and back-end development with .NET. I have worked in cloud environments using Azure and AWS, with experience in implementing CI/CD pipelines, domain management, performance monitoring, and technical support. I am known for meeting deadlines, providing functional solutions, and maintaining effective communication within the team.

PROFESSIONAL EXPERIENCE

DEVELOPER   **Red Companies | May 2025 - to date**

I participate in the development of web projects using .NET and React, as well as in maintenance and updates of mobile applications built with Ionic. I collaborate with multidisciplinary teams to implement functional and scalable solutions, ensuring seamless integration between front-end and back-end.

INFRASTRUCTURE ADMINISTRATOR   **Red Companies | May 2022 - May 2025**

I managed cloud infrastructure using Azure and AWS, optimizing deployment processes through CI/CD pipelines in Azure DevOps. I administered resources such as Azure Web Apps, custom domains, Azure Active Directory, and monitoring with Azure Advisor. I integrated services like AWS IAM and Route 53 to ensure secure access and DNS configuration. I provided technical support, led the procurement of equipment, and collaborated on projects using React, .NET, and Ionic technologies, including Apple Wallet integration and the publication of mobile applications on Google Play and the App Store.

Key Achievements:
• Published mobile applications on the App Store and Google Play, meeting technical and regulatory requirements.
• Implemented optimized cloud infrastructure for internal SaaS solutions.
• Managed resources and provided technical support at the organizational level.
• Successfully reduced infrastructure costs without compromising site performance.

IT TECHNICAL SUPPORT & QA   **Red Companies | August 2021 - May 2022**

I performed software testing and debugging using tools such as Selenium and Postman. I collaborated with the development team in identifying and resolving bugs, and designed QA methodologies to improve efficiency in the quality assurance process.

IT TECHNICAL SUPPORT INTERN   **Red Companies | April 2021 - August 2021**

I provided remote and on-site support for issues related to devices, network, and institutional accounts. I managed users and security configurations, administered SharePoint sites and communication channels in Office 365, adapting to the organization's technical needs.

CERTIFICATIONS

• **[iOS Application Development (Competency Certificate)](iOS%20Application%20Development)**   Tecnológico de Monterrey | 2026

ACADEMIC BACKGROUND

• **Ingeniería en Tecnologías de la Información.**   Universidad Tecnológica Fidel Velázquez | 2021
• **Internship and Governors Program**   The Washington Center for Internships and Academic Seminars | 2019
• **TSU en Tecnologías de la Información y Comunicación**   Universidad Tecnológica Fidel Velázquez | 2018

CONTINUING EDUCATION

English Language Program (Intermediate)   University of Calgary | 2018

LANGUAGE

Spanish: Native | English: Intermediate | French: Basic

HARD SKILLS

- iOS application development using SwiftUI and UIKit.
- Front-end development with React and JavaScript.
- Back-end development with .NET.
- Database management with SQL Server and MySQL.
- Cloud infrastructure with Azure and AWS.
- CI/CD with Azure DevOps and version control (Git, GitHub, Bitbucket).
- Mobile applications with Ionic and automated testing with Selenium and Postman.
- Hosting and deployment with Firebase, Vercel, and Cloudflare.
- Development environment management and coding best practices.

SOFT SKILLS

- Commitment to goals and timely delivery of tasks.
- Effective communication in collaborative environments.
- Identification and strategic use of team members' skills.
- Agile follow-up on requests and requirements.
- Consistent application of values: honesty, respect, and punctuality.
- Self-directed learning and willingness to collaborate.
- Adaptability to new environments and technologies.
- Responsibility in making technical decisions.
